

# Product Discontinuation Statement

This document outlines 2N TELECOMMUNICATIONS products that have been discontinued or will be discontinued and indicates the relevant replacement products.

## Discontinued Products

Discontinued product		Replacement Product		Stock level	Final support date
Name	Order number	Name	Order number		
2N® VoiceBlue Next 2xGSM	5051022W	2N® VoiceBlue Next 2xUMTS	5051042W	Low	31.7.2026
2N® VoiceBlue Next 4xGSM	5051024W	2N® VoiceBlue Next 4xUMTS	5051044W	Low	31.7.2026

UMTS versions are supporting same GSM networks as discontinued products. It has an advantage to use UMTS networks if GSM networks are not available or if GSM networks have weaker signal than UMTS networks. Other features stay the same.

### Reason

The reason for this sudden discontinuation is that a component has been discontinued without prior notice.

### Final Order Date

The old models will continue to be sold until we run out of components and our stock.

Low stock level should cover few weeks.

Medium stock level should cover few months.

Please note that an unforeseen increase in demand can cause that the products are out of stock earlier.

### Support and RMA Policy

2N TELECOMMUNICATIONS will continue to give world-class support and RMA service for the Discontinued Products until the date set in the table above. As long as the product is within the warranty period, the RMA service is for free.

2N TELECOMMUNICATIONS RMA service will be based on the Discontinued Products as the primary alternative. When this is not possible, the replacement product will automatically be the alternative stated in the table above.
